## FIGHT TO A DRAW.

### r Leon and Steve Flanagan Give a Clever Coptest in New York.

YORK, Sept. 30.-The bantam louship of America still belongs to r Leon, the Italian boxer of this city, had a close call in the twenty-five ia, before the Lenox Athletic Club clut. These two ladr met at 165 pounds out up a bout which was one of the stand cleverest contests which has of the fight the stiff pace told on while the Philadelphian showed very signs of distress. In fact the Philadelphian showed very signs of distress. In fact the seemed to grow stronger towards one clusion of the bout.

• referee satisfied the majority of those

who witnessed the contest when he declared the bour a draw, as neither had gained a material advantage. Johnny White, of England, was referee. Neither seemed to have suffered much up to the twenty-third round. In the middle of the round the fighting was very fast and the crowd cheered wildly as each landed some very heavy blows, and at the close of the round they were fighting fiercely.

Flanagan was the first to lead in the twenty-fourth, landing a stiff right hand punch on the body. He put in four successive left facers without a return. Leon fought back, but Flanagan was much the stronger. Leon left himself open and Flanagan swung his right heavily on the chest. The pace was very hot just then, considering the distance they had gone.

## With the Amateur Players.

The Acmes and the Exchanges will play a match game on the Brunswick alleys Monday night for \$25 a side. a match game on the Brunswick alleys Monday night for \$5 a side.

The Sunflowers and the Schmeizers will play at old League park Sunday afternoon. Following Sunflowers take notice: Woods, Haggerty, Curtis, Oliver, Harlan, McDill, Baehr, Friess, Kendall and Yelton.

Much interest is being shown in the two big hall games to be played to-morrow afternoon at Exposition park to close the enampionship season of the Interstate Amnteur League. The Hagans will play the Mills and the Elkes will play the Zahner & Battells. The Hagans und Elkes are Kansas teams, and great rivalry exists between them, and the two other clubs, which are from the Missouri side. Added to this feature is the fighting chance three of the clubs have for finishing in second place and winning the league's \$5 purse. If either the Mills or Elkes win they will take second place, but should the Hagans down the Mills and the Zahner & Battells win from the Elkes, the Zahner & Battells would jump from fourth to second place. As an evidence of the interest being taken in the coming game by lovers of amateur sport, Manager Bouseman, of the Elkes nine, of Kansas City, Kas., sold 100 tickets in one day.

Baseball Notes.

# The Debut of Autumn, 1898.

A Prodigious Establishment. In accordance with our usual custom, we invite the people of Kansas City to attend the opening of the Fall Season in Clothing, Furnishings and Headwear for Men, Youths and Boys to day. Never before in all the many years we've been anticipating your Clothing wants have we had such bargains. You'll find here an absolutely magnificent array of fashionable apparel representing the richest, rarest and latest designs and materials used by leading clothing makers, both on this hemisphere and abroad, elegantly made, exquisitely finished and faultlessly fashioned; the season's choicest and rarest products, accepted by the most critical examplars of men's fashions in New York, Washington and Boston—at prices that in each and every instance will prove emphatically

Never in our whole history have we had such a magnificent array of styles to select from; never were we able to sell at such low prices as this season.

lower than anywhere else.

What are figures in newspapers? We might name figures here and fill a page and you'd know no more than when we began; we have goods here at all prices, and for the price we ask you'll find our goods cheaper than anywhere else in Kansas City. An investigation will convince you of this in short order. MEN'S SUITS range in price:

PAVING BETWEEN TRACKS. Board of Public Works Orders That

It Be Done With Same Material as the Streets. The board of public works yesterday

nade the following order requiring the pavement between all street railway tracks to be constructed of the same material as the street pavement: the street payement:

Whereas, Many complaints have been made to this board of the failure of the Northeast Electric Railway Company and the Metropolitan Street Railway Company to pave between their tracks with the same material as the balance of the street is paved and these complaints are made to us because of the belief that we have authority to act and we find that charters were granted before the board was established, as a street made of which they contain provisions that

were granted before the board was established, as consequence of which they contain provisions the common council may, by ordinance, require it paving to be done; therefore, be it. Resolved, by the board of public works. That respectfully call the attention of the honorable common council to these complaints and recommend the ordinances be passed directing the Northeast Elect Railway Company and the Metropolitan Street Railway Company and such other companies, if any, are derelict in their duty of paving, to proceed once to comply with the terms of their franchis it would seem to be very unjust for property own to pay high prices for paving and sireet railway coming to escape the expense of paving between the tracks with like material as the halance of the strespects.

and organized a union with a membership o begin with of 150 members. The leaders of the movement provided and the second of the movement provided and the second of the movement provided and the second of the seco Programme Price. in the movement propose to bring into their organization all the newsboys in the city as has already been done in other places The first official act of the union was the appointing of a committee yesterday to coner with the officers of the Priests of Pallas Association regarding a reduction to the newsboys in the price of the Priests of newsboys in the price of the Priests of Pallas programmes. Heretofore the price of the programmes has been 7 cents, but the boys ask that it be changed to 5 cents and threaten, in case it is not, to boycott the association. It is not the intention, how-ever, of the boys to reduce the price at which the programmes will be sold, but 10 cents each will be asked as formerly, bringing the rate of profit, in case the re-duction is granted, to 100 per cent.
